# *The Deer Park*

The old orchard is now used to house some of our native Red Deer which were brought to Coole from Killarney in 1971.

The Red Deer is the largest of the three species of deer found in Ireland. They arrived here after the last Ice Age, almost 10,000 years ago, and were widespread until the 17<sup>th</sup> century when many of our forests—the deer's habitat—were cut down.
