

Information Booth

The purpose of the information booth is to:

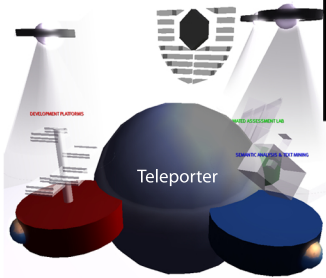

- Provide an easy method for visitors to discover information about the AAL and Australis 4 Learning more quickly and efficiently.
- It also has a survey function, which allows the user(s) to easily share their thoughts on how usefully they found the Information Booth.

Teleportation Device

The purpose of the teleportation device is to:

- Allows the user to transport to a pre-determine location throughout the island with two clicks.
- This will provide users an easy way of transportation around Australis 4 Learning Island.
- A mapping system is also provided, that will display a map of the island and the building locations.

Feedback Form

The purpose of the feedback form and its letterbox is to:

- Allow users to provide feedback and suggestions on different aspects of the system, based on their experiences on the island.
- This feedback can then be used to improve the AAL, the island, and the facilities.
